

# Aims and Ethos

The Win Academy aims to deliver a high standard of education to Student/Athletes aged between the ages of 10 and 18 who are aiming to pursue a sports career in Tennis or Badminton.

We offer a full educational programme encompassing the Key Stages through to 'A' Level and SAT examinations. Our educational structure is uniquely designed to support full-time sports training and competition; and help each student maximise their potential in both disciplines.

Win Academy embraces the ethos of a positive team spirit and expects each Student/Athlete to understand and value commitment, respect, self-discipline and hard work to achieve their goals.

We welcome students from all cultures and at all stages in their personal development.
